- **Other data** not specifically listed here, which we will use as described in this Privacy Policy or as otherwise disclosed at the time of collection.

Third-party sources. We may combine personal information we receive from you with personal information we obtain from other sources, such as:

- **Public sources**, such as social media platforms and other publicly available sources.
- **Private sources**, such as data providers and data licensors.
- **Third-party services**, such as Google, that you use to log into, or otherwise link to, your Service account. This data may include your username, profile picture and other information associated with your account on that third-party service that is made available to us based on your account settings on that service.

Automatic data collection. We, our service providers, and our business partners may automatically log information about you, your computer or mobile device, and your interaction over time with the Service, our communications and other online services, such as:

- **Device data**, such as your computer or mobile device's operating system type and version, manufacturer and model, browser type, screen resolution, RAM and disk size, CPU usage, device type (e.g., phone, tablet), IP address, unique identifiers, language settings, mobile device carrier, radio/network information (e.g., Wi-Fi, LTE, 3G), and general location information such as city, state or general geographic area.
- **Online activity data**, such as pages or screens you viewed, how long you spent on a page or screen, the website you visited before browsing to the Service, navigation paths between pages or screens, information about your activity on a page or screen, access times and duration of access, and whether you have opened our emails or clicked links within them.
- **Communication interaction data** such as your interactions with our email or other communications (e.g., whether you open and/or forward emails) – we may do this through use of pixel tags (which are also known as clear GIFs), which may be embedded invisibly in our emails.

Automatic data collection technologies. Some of the automatic collection described above is facilitated by the following technologies:

- **Cookies**, which are small text files that websites store on user devices and that allow web servers to record users' web browsing activities and remember their submissions, preferences, and login status as they navigate a site. Cookies used on our sites include both "session cookies" that are deleted when a session ends, "persistent cookies" that remain longer, "first party" cookies that we place and "third party" cookies that our third-party business partners and service providers place.
- **Local storage technologies**, like HTML5, that provide cookie-equivalent functionality but can store larger amounts of data on your device outside of your browser in connection with specific applications.
- **Web beacons**, also known as pixel tags or clear GIFs, which are used to demonstrate that a webpage or email was accessed or opened, or that certain content was viewed or clicked.
